

# Collaborative Learning Research Laboratory

*Welcome to a whole new teaching and learning experience that offers a perfect blend of Pedagogy, Space and Technology!*

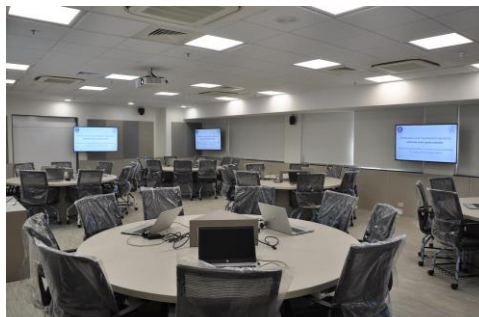

## Features include:

- ❖ Round tables for collaboration and sharable physical workspace
- ❖ Space accommodates 45 students across 5 round tables; 9 students across each table
- ❖ Movable chairs
- ❖ Free movement paths for instructors and accessibility to each student in the classroom
- ❖ Common writable surfaces for a collaborative learning experience
- ❖ Three laptops on each table with wired and wireless internet connectivity; promotes digital space collaboration
- ❖ Each table with its dedicated display; projector connected to the central display screen
- ❖ Screen sharing facility; any laptop screen from the room can be shared with dedicated displays and central display in the room
- ❖ High-quality audiovisual facility, acoustic arrangements for broadcasting

## Pedagogy driven Space & Technology Transforming lecture classrooms into Active Learning Spaces

107, First floor, DESE-CESE Building, IIT Bombay

**Parimal and Pramod Chaudhari  
Centre for Learning and Teaching**

Collaborative Learning Research Laboratory is a student-centred, technology-rich learning space to facilitate collaborative and active learning pedagogy. It is designed to foster interactions among students. The space also offers opportunities for education researchers to develop and evaluate evidence-based and data-informed collaborative and active learning pedagogies for effective learning.

To know more about how you can use this learning space, please refer to the resources given [here](#).

Please write to us at [office.ppcclt@iitb.ac.in](mailto:office.ppcclt@iitb.ac.in) for any further queries.

To reserve and use the learning space, please click [here](#).
